

# Case Study

**Kirby Group Engineering** is a leading mechanical and electrical engineering contractor providing full mechanical and electrical contracting services plus specialist high voltage (HV) and medium voltage (MV) design and construction services to sectors including Data Centres, Life Sciences, Industrial, Commercial, and Power and Renewables.

Founded in 1964 in Limerick, the company celebrated 60 years delivering value in 2024 with over 1,500 direct employees and over 3,000 people deployed across Ireland, UK and mainland Europe.

‘We are delighted to have had the opportunity to participate in the *‘Orchards in the Community’* initiative again this year via Host in Ireland and have sponsored 30 mini-orchards (5 trees each) for the local community - a key AIPP evidence-based action.’

**Claire Brennan, Marketing Manager,  
Kirby Group Engineering**

## Future Plans:

‘We will participate in the Host in Ireland *Bulbs in the Community* programme in 2024 and track the results from the previous three Orchard programmes.’

In line with the AIPP evidence-based ' <a href="#">Businesses: actions to help pollinators</a> ' guidelines, Kirby Group Engineering has delivered the following actions:	Evidence-based Action delivered:
<b>Local community</b> - We have participated in ' <a href="#">Orchards in the Community</a> ' via Host in Ireland again this year sponsoring 30 mini-orchards (5 trees) - an AIPP evidence-based action.	<b>Action 24</b> Sponsor pollinator activities in your local area
<b>Employees</b> - We held an online talk, inviting all employees, where we discussed how we can assist pollination in Ireland. All resources from the talk were circulated	<b>Action 26</b> Promote the All-Ireland Pollinator Plan to employees
